

Proprietary Information & Inventions Agreement (PIIA)

Repairo Inc. Core Intellectual Property Assignment Document

SARVAM STARTUP PROGRAM
BACKED

1. Assignment of Inventions & Code

The undersigned employee/contractor hereby assigns and transfers exclusively to **Repairo Inc.** all right, title, and interest in and to any and all code, AST transformation algorithms, software architecture, documentation, domain names, and trade secrets created during their service with the Company.

2. Zero-Retention Memory Security Compliance

The employee/contractor agrees to adhere to Repairo's strict Zero-Retention RAM Architecture. All customer repository code parsed during repair runs executes strictly in volatile RAM with an immediate ~24ms memory purge cycle. Zero customer source code shall ever be saved to disk, external servers, or personal devices.

3. Confidentiality & Non-Disclosure

The employee/contractor agrees to hold in strict confidence all proprietary technical data, security vault protocols, customer lists, and financial metrics of Repairo Inc.

Aditya
