

LETTER OF ENGAGEMENT & OFFER OF EMPLOYMENT

Candidate Name:	Rehan Shaikh	Date:	August 2, 2026
Position:	Founding Security & DevSecOps Lead	Reporting To:	Aditya (Founder & CEO)

Dear Rehan Shaikh,

We are delighted to formally offer you the position of **Founding Security & DevSecOps Lead** at **Repairo Inc.** We were deeply impressed by your expertise in **cloud infrastructure, security operations, and zero-retention system architecture.**

1. Role & Scope of Ownership

As Founding Security & DevSecOps Lead, you will hold executive engineering ownership across our security, cloud infrastructure, and CI/CD automation:

- **Zero-Retention Volatile Memory Vault:** Architect and audit Repairo's volatile RAM buffer pipeline (~24ms memory purge cycle) ensuring zero customer source code is persisted to disk.
- **SBOM CVE Vulnerability Scanning:** Build automated GitHub Actions security workflows (`.github/workflows/sbom-scan.yml`) that audit customer dependencies during repair runs.
- **Cloud Infrastructure Security:** Oversee deployment security, SSL/TLS certificates, environment secrets, and rate limiting across Vercel and Railway production clusters.

2. Zero-Retention Security Guarantee

Zero-Retention Memory Security Guarantee:

Repairo parses customer code strictly in volatile RAM with an immediate ~24ms purge cycle. All IP and software contributions are protected under formal startup IP assignment agreements.

3. Equity & Engagement Terms

- **Position Level:** Founding Core Executive
- **Founding Equity:** Allocation in the Founding ESOP Pool under the Sarvam Startup Program structure.
- **Work Setup:** Hybrid / Remote

We are thrilled to welcome you to the founding leadership team as we build Repairo into a global developer platform.

Aditya

Founder & CEO, Repairo

[Signed Electronically]

Rehan Shaikh

Founding Security & DevSecOps Lead
