

LETTER OF ENGAGEMENT & OFFER OF EMPLOYMENT

Candidate Name:	Sneha	Date:	August 1, 2026
Position:	Founding Full-Stack Engineer	Reporting To:	Aditya (Founder & CEO)

Dear Sneha,

We are delighted to formally offer you the position of **Founding Full-Stack Engineer** at **Repairo**. We were immensely impressed by your engineering expertise, problem-solving skills, and passion for building high-impact developer infrastructure.

1. Role & Scope of Ownership

As a Founding Full-Stack Engineer, you will hold end-to-end technical ownership across both frontend client interfaces and backend microservices:

- **Frontend Engineering:** Build and scale the core Next.js 16 user application dashboard (/app), live AST code diff visualizer, interactive sandbox demo, and public catalog pages.
- **Backend Engineering:** Architect robust REST APIs and Webhook services using Python (FastAPI) and Node.js, implement GitHub OAuth authentication, and manage PostgreSQL/SQLite database schemas.
- **API Vendor Integrations:** Maintain polling pipelines for OpenAPI changefeeds across 500+ vendor endpoints (OpenAI, Gemini, Stripe, Supabase).

2. Zero-Retention & Strict IP Protection Clause

Zero-Retention IP Security Guarantee:

Repairo enforces a strict Zero-Retention Policy. All customer code parsing takes place strictly in volatile RAM and is flushed immediately (~24ms purge cycle). Your work and intellectual property contributions will be protected under formal startup IP Assignment agreements.

3. Equity & Engagement Terms

- **Position Level:** Core Founding Engineer
- **Founding Equity:** Eligible for allocation in the Founding ESOP Pool under the Sarvam Startup Program structure.
- **Work Setup:** Hybrid / Remote

We are thrilled to welcome you to the founding team as we build the automated maintenance layer for software engineering teams worldwide.

Aditya
Founder & CEO, Repairo

[Signed Electronically]

Sneha
Founding Full-Stack Engineer
